What We Can Do for Your Business

We serve small businesses, professional offices, and mid-size companies across Plymouth, Norfolk, and Bristol counties.

1. Technology Refresh & Procurement

Hardware lifecycle planning, device sourcing, and deployment. We assess what you have, recommend what to replace, and handle configuration and data migration.

2. Microsoft 365 & Cloud

Licensing, migration, administration, and user training for Microsoft 365, SharePoint, Teams, OneDrive, and Azure.

3. Network Infrastructure

Wired and wireless network design, installation, and configuration for offices of any size, including VPNs, firewalls, and switches.

4. Backup & Disaster Recovery

Automated, tested backup solutions and documented recovery plans so your business can survive hardware failure or ransomware.

5. IT Consulting & Strategy

Vendor-neutral advice on technology investments, software selection, compliance requirements, and IT planning.

6. Remote & On-Site Support

Hourly remote and on-site support when you need it. No retainer required, available for businesses of all sizes.
